

TRUSTED COAT UK

*Precision Finishing **at** Commerical Scale*

TRUSTED COAT

UK

At **Trusted Coat UK**, we've revolutionised the commercial construction industry by bringing together three essential services under one trusted roof. Since our inception, we've built our reputation on a simple yet powerful principle: delivering exceptional quality whilst making our clients' lives easier.

Operating throughout the UK, we specialise in painting and decorating, tape and joint drylining, and internal/external spray painting exclusively for commercial projects.

Our nationwide presence means we're never far from your site, ready to respond with speed and professionalism when you need us most.

What sets us apart isn't just what we do, but how we do it. We've created a seamless, stress-free experience by managing multiple disciplines in-house, eliminating the headaches of coordinating separate contractors. Our commitment to quality, reliability, and outstanding service has made us the preferred choice for construction companies, fit-out specialists, and facility managers across retail, education, hospitality, and commercial sectors.

***Welcome to a new standard in coating solutions.
Welcome to Trusted Coat UK.***

Our Vision & Values

Building Excellence Through Trust and Quality

Our vision is to become the most trusted name in commercial coating solutions across the UK – achieved through three core values.

Excellence in Execution

Every surface we treat, every coat we apply, and every joint we finish receives the same meticulous attention to detail – quality is never compromised, regardless of project scale or timeline.

Integrity in Service

Trust is earned through consistent, honest service. We communicate openly, deliver on our promises, and take full accountability. When challenges arise, we own them and solve them.

Innovation in Approach

By consolidating three specialised services under one management structure, we save time, reduce stress, and deliver superior results whilst continually investing in the latest techniques and materials.

The Trusted Coat Difference

Three Services. One Team. Zero Headaches.

Managing multiple contractors is a logistical nightmare — conflicting schedules, communication breakdowns, and finger-pointing when issues arise. We've eliminated these pain points entirely.

Your One Stop Coating Solution

One point of contact, one schedule, one quality standard, and one company accountable for results across spray painting, tape and joint drylining, and painting and decorating.

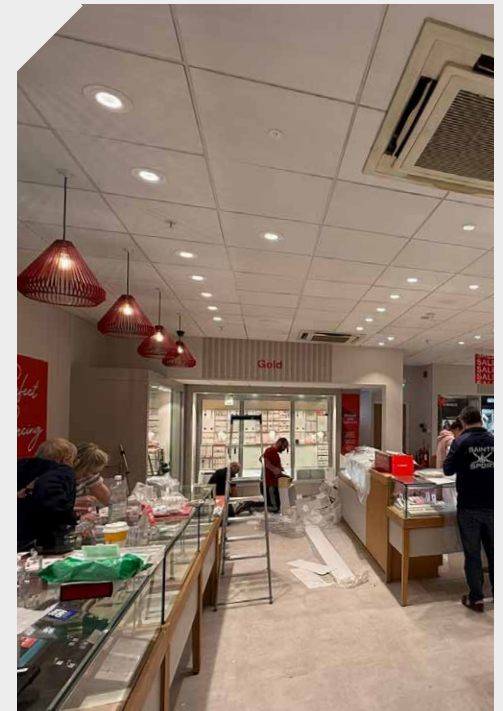

From Steel to Finish

We take your project from structural stage through to final decoration — fire protection to steels, substrate preparation, tape and joint, and flawless painted finishes.

Quality Control In-House

Issues between trades become our problem to solve, not yours. Our integrated quality control ensures each phase meets our exacting standards before the next begins.

Nationwide Coverage & Rapid Response

Wherever You Are, We're Ready

With strategically positioned teams throughout the UK, we offer unparalleled geographical coverage. Our nationwide footprint isn't just about presence — it's about performance.

Speed Without Compromise

When timelines shift, our distributed team structure allows us to mobilise quickly without sacrificing quality. We can man up a site at short notice when you need it most.

Local Knowledge, National Standards

Every regional team operates to the same rigorous specifications — consistent excellence whether we're in Manchester, London, Birmingham, or anywhere across the UK.

Meeting Tight Deadlines

Our ability to rapidly deploy additional resources means we can compress timelines when necessary. We've built our reputation on hitting deadlines, even the challenging ones.

Painting & Decorating Services

Transforming Spaces with Precision and Care

Our commercial painting and decorating service combines traditional craftsmanship with modern techniques to deliver exceptional finishes that stand the test of time.

Commercial Expertise

We work efficiently within occupied buildings, coordinating with your schedule to minimise disruption. From retail to education, we've perfected working in sensitive environments.

Premium Materials, Superior Results

We exclusively use premium-grade paints and coatings from leading manufacturers, selected for performance and longevity. Technical data sheets provided as standard.

Comprehensive Surface Preparation

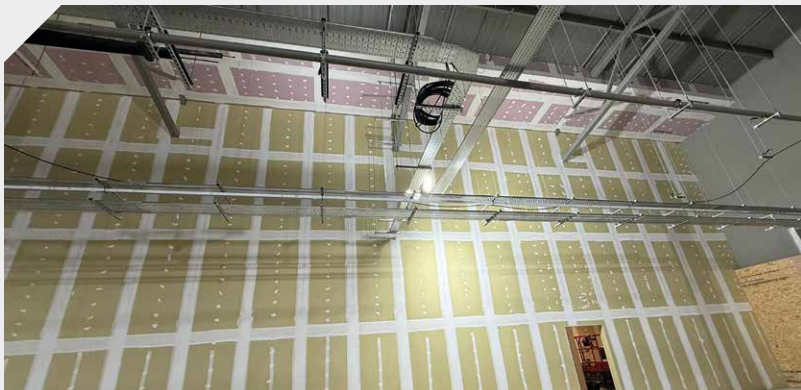

Meticulous substrate assessment before every application ensures optimal adhesion, uniform coverage, and a flawless finish that reflects the quality of your facility.

Tape & Joint Drylining

Creating Flawless Surfaces

Our drylining specialists transform newly installed plasterboard into perfectly smooth, ready-to-decorate surfaces meeting the most exacting standards.

Seamless Perfection

We treat every joint, corner, and fastener head with precision for invisible results. We don't just hide seams, we eliminate them.

Technical Proficiency

Fully trained in all modern drylining systems, our teams handle various plasterboard thicknesses, joint configurations, and architectural details with confidence.

Quality That Lasts

Premium jointing compounds and proven techniques create stable, durable surfaces that maintain their integrity throughout the building's lifecycle.

Coordinated Workflow

Our tape and joint teams work in harmony with our painting crews, ensuring each phase begins on schedule with surfaces in optimal condition.

Spray Painting *Services*

Advanced Application Technology

Our spray painting division represents the cutting edge of coating application, delivering superior finishes with remarkable efficiency across diverse substrates and project requirements.

Fire Protection Expertise

We provide fire protection coatings to structural steelwork during the erection phase, ensuring compliance with building regulations. Our teams work safely at height, coordinating with steel erectors.

Substrate Versatility

From metal to masonry, our spray application capabilities cover the full spectrum of commercial construction materials, adapting our techniques to each unique requirement.

Efficiency and Coverage

Professional-grade spray equipment ensures consistent coverage, reduced material waste, and faster completion, particularly on large surface areas and complex geometries.

Our Client Sectors

Specialised Experience Across Industries

Trusted Coat UK serves diverse commercial sectors, bringing specialised knowledge and proven performance to every project type.

Retail Excellence

Major retail chains trust us to deliver showroom-quality finishes with tight turnaround times between trading periods and minimal operational disruption.

Educational Facilities

Experience in schools, colleges, and universities includes term-schedule coordination, DBS-cleared operatives where required, and safety-prioritised material specifications.

Hospitality Sector

Refined aesthetics combined with practical durability for high-end restaurants and hospitality venues where first impressions are everything.

Commercial Construction & Fit-Out

We integrate seamlessly into larger project teams, coordinating with other trades whilst maintaining our independent quality standards.

Why Choose Trusted Coat UK

10 Compelling Reasons to Partner With Us

Single-Source Accountability: One company manages all coating requirements, clear accountability, zero coordination headaches.

Nationwide Reach: Strategic team positioning ensures rapid mobilisation wherever your project is located.

Integrated Quality Control: Surface preparation issues are resolved internally, never becoming your problem.

Proven Track Record: Successfully delivered projects across diverse sectors with a reputation for reliability and quality.

Flexible Resource Deployment: We scale resources when project demands change, preventing delays and maintaining momentum.

Premium Materials: Leading-brand materials with comprehensive technical documentation and guaranteed performance.

Experienced Workforce: Qualified, skilled craftsmen committed to the highest standards of workmanship.

Clear Communication: Regular progress updates and transparent reporting keep you informed throughout.

Health & Safety Excellence: Full regulatory compliance, comprehensive risk assessments, and a strong safety culture.

Competitive Value: Consolidated services reduce overall project costs whilst delivering superior results.

Client Testimonials

Trusted Coat UK transformed a potentially complex multi-contractor situation into a seamless, stress-free experience. Their integrated approach saved us time and money whilst delivering exceptional quality.

Project Director,
Major Construction Company

Trusted Coat have completed numerous projects for us. Ash and his team always provide a professional service completed to a high standard. Distance, size and time-scales are never an issue.

Magno construction Ltd

Trusted Coat have become our go-to decorators for a reason. Their workmanship is consistently excellent, communication is smooth, and they treat every project with real care and professionalism. We have complete trust and faith in their ability to deliver.
